## **Introduction**

This document has been created for clarity regarding the structures that are in place at Nepean Rowing Club.

This manual will outline the essential elements of all our programs, the standards athletes are expected to meet and other essential pieces of information regarding training. Every rower partaking in our program is expected to read the entirety of this manual so that they know how the program will run and the standards they must achieve.

I hope this manual is informative and any questions regarding the contents of this manual should be directed to the Rowing Coordinator.

## **Selection Process**

The Rowing Coordinator in consultation with the elected rowing officials:

- Selects what squad rowers go into
- Select what sessions rowers attend
- Choose which boats rowers use
- Choose which races rowers compete in
- Select the squads that will compete at State and National Championships

All decisions are final and cannot be disputed.

## Ergometer Standards - Junior

Under 16, Under 17, Under 19 times are listed below. Each table dictates the minimum ergometer score that should be attained to be competitive in each category. There is a minimum time that must be met to compete in each age category. Selection in state/national squads will use erg scores, this is detailed in a later section. These are the minimum standards, and winning crews may be quicker than those times listed. Remember rowing is heavily influenced by power to weight ratio so lighter rowers may have slower ergometer scores in comparison to heavier rowers.

Ergometer tests will take place monthly. It is the responsibility of rowers to keep track of where their time places them in accordance with the below tables.

### Minimum Standards

This is the minimum time you must do to be put into the Club squad.

### Club Standard

Competitive in grade events and compete in larger boats in age events.

### Higher Club Standard

Competitive at club regattas in your age category in small boats and will compete in larger boats at State Championships.

### State Standard

These athletes are aiming to be competitive in small boats at club regattas and State Championships and will be contesting selection in larger boats at National Championships. This is the time to be meet to part of the Nepean Development squad.

### National Standard

These are the times required to be considered competitive in small boats at Nationals.

### International Standard

Representing Australian standards- men

Under 19 heavyweight: 2000m – lower expectation 6:20 – Aspirational 6:08

Under 19 heavyweight: 5000m – lower expectation 16:56 – Aspirational 16:24

Representing Australian standards- women

Under 19 heavyweight: 2000m – lower expectation 7:15 – Aspirational 7:05

Under 19 heavyweight: 5000m – lower expectation 19:06 – Aspirational 18:40

### **Ergometer Standards: Club**

Age is not factored in as this squad targets non-age-based racing. Each table dictates the minimum ergometer score that should be attained to be competitive in each category. Remember rowing is heavily influenced by power to weight ratio so lighter rowers may have slower ergometer scores in comparison to heavier rowers.

Ergometer tests will take place periodically throughout the year. It is the responsibility of rowers to keep track of where their time places them in accordance with the below tables.

#### Grading system
